

Rourkela Municipal Corporation

Uditnagar Stadium and Vending Zone

Stadium gallery on the eastern part of the field has been constructed with sitting capacity of 3000 spectators. Construction of drain, cow catcher, drinking water facility provisions are being made.

The back side of the Gallery has been developed to a vending zone with 86 nos. shop rooms of various sizes. The evicted road side shop keepers have been allotted with shop room in the said vending zone.

The project was taken up with an estimated cost of Rs49.94 Lakh. The project has been widely applauded as it is the ground where National and State Days are celebrated. Besides, the field has become useful for all sports loving persons to use it as a playground.

Vending Zone at Basanti Colony

Out of total project cost of Rs.99.00 lakh for construction and erection of Vending zone in different area, in the 1st phase construction of 100 nos. structure of Basanti Colony Vending zone with an estimated cost of Rs.50.00 lakh is under progress and 72 nos. of vending zone structure has been completed and remaining are in progress. Allotment of vending zone shops to the evicted road side vendors of Basanti colony as per survey report will be completed by August 2015.

Food surveillance activity

Food surveillance activity is going on a twice weekly basis and licensing and registration of food vendors is being taken up regularly.

Disease surveillance: due to active surveillance activity by health department an outbreak of waterborne disease in few of the wards were detected at an early stage and with proper coordination with departments like PHED and W&CD and was contained without any mortality. Simple measures like lifting the drinking water pipes from the drains, chlorination of drinking water, water tasting to detect point of contamination helped averting any mishap.

Swatcha Rourkela Abhiyan

“Swachh Bharat Abhiyan” launched in Rourkela Municipal Corporation on 25/2/2014 with one week observation and continuing till date with a motto to elimination of total open defecation, eradication of Manual Scavenger and proper awareness Creation among all. The said program was flag off by Honorable Minister Tribal Welfare Government of India Sh. Juel Oram and Honorable M L A Rourkela Sh. Dillip Ray. The basic objective is to create an environment which is conducive for living in a livable atmosphere. Emphasis was given on individual household toilet, community toilet, public toilet and maintenance of hygienic condition to achieve a state which is free from open defecation.

Rourkela Municipal Corporation has given main focus on how to make Rourkela a clean and green city. Keeping in view of the above, total sanitation drive has been taken up by creating 33 ward committee headed by sanitary inspectors, sanitation supervisors, Co-opted persons of the ward, NGOs and voluntary organizations. Focus is on community participation and mobilization of grass root level workers for involvement from all sections.

Sensitisation Meeting on NUHM Program to Urban ASHAs

INITIATIVES UNDER NUHM

Branding of UPHC is an important prerequisite prior to its operationalisation. Accordingly, Basanti Colony DAV (MAS) which has been selected as a UPHC was branded for information of all concerned. Specialised Doctors in gynecology and pediatrics branch were provided to strengthen the OPD facilities to all.

Team visit for site selection of UPHC at Golghar(1)

Since NUHM will also cover the Steel Township area it is mandatory to finalise the UPHCs for notification. In an initiative a joint visit along with RSP authorities was made for site selection.

“Swasthya Kantha” a step towards involvement of community for maintenance of health and sanitation through awareness. Participation of community has become a potent to strengthen the health response mechanism with a view to bring holistic changes in their quality of life.
